- 1. Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 99/219935 or Vitukhnovsky et al. both in view of WO 2003/017731 to Bellman et al. for the same reasons as set forth in paragraph 1 of the last office action filed 11-14-05. The affidavit under 37 CFR 1.131 is unconvincing since it is not clear that the transfer layers of dendrimers consisted of the dendrimers without additional components. The components of formulations 1 and 2, i.e. "CBP", "ELO28T", "PBD/EM", "MF", in the notebook are not identified. The mixture of light emitter dendrimers and other light emitters in transfer layers is the claimed subject matter of Bellman et al.
- 2. The terminal disclaimer has been approved and recorded overcoming the double patenting rejection.
- 3.**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
